CENSUS OF THE TOWNS IN MASSACHUSETTS,

As taken under a Law of the State, certain classes being omitted.

The figures in the first column is the date of Incorporation. The figures in the column of towns, show the number of Representatives to which each town is entitled, by the amendment of the Constitution. Those towns with a dash (-) before the number are entitled to one representative that number of years in the next ten years. The two last columns show the census in 1840, and the distance from Boston. See Note on page 19.

AMENDMENT OF THE CONSTITUTION.

An Amendment of the Constitution of this State was agreed to by the General Court, in 1839, and in 1840, and approved and ratified by a majority of the votes of the people, on the 6th of April, 1840;—the number of votes for the Amendment being 24,884; against it, 4,912:—majority, 19,972.

The principal provisions of this Amendment are the following:—A census of the inhabitants to be taken on the 1st of May, and returned to the Secretary's office on or before the last day of June, in 1840, and every tenth year thereafter, which census shall determine the apportionment of the Senators and Representatives for the term of 10 years.

The Senatorial Districts, now existing, are to be permanent. The Senate to consist of 40 members, chosen in each District according to the number of inhabitants; but, in all cases, each District to be entitled to at least one Senator.

Every town or city containing 1,200 inhabitants is entitled to elect one Representative; and 2,400 inhabitants are made the mean increasing number, which entitles it to an additional Representative.—Every town containing less than 1,200 inhabitants is entitled to elect a Representative as many times, within 10 years, as the number 160 is contained in the number of inhabitants of said town; and such towns may also elect one Representative for the year in which the valuation of estates within the Commonwealth is settled.

The number of inhabitants which entitles a town to elect one Representative, and the mean increasing number which entitles a town or city to elect more than one, and also the number by which the population of towns, not entitled to a Representative every year, is to be divided, are to be increased, respectively, by one-tenth of the numbers above mentioned, whenever the population of the Commonwealth shall have increased to 770,000; and for every additional increase of 70,000 inhabitants, the same addition of one-tenth is to be made, respectively, to the said numbers.

Nine Councillors are to be annually chosen from among the people at large, on the 1st Wednesday of January, or as soon thereafter as may be, by a joint vote of the Senators and Representatives.

OUTLINES OF THE MILITIA LAW OF 1840.

Every able-bodied white male citizen, resident within this Commonwealth, between the ages of 18 and 45 years, excepting persons enlisted into volunteer companies, persons absolutely exempt by law, idiots, lunatics, common drunkards, vagabonds, paupers, and persons convicted of an infamous crime, is required to be enrolled in the *militia*; but the militia thus enrolled is subject to no active duty whatever, except in case of war or invasion, or to prevent invasion.

The *active militia* is composed of *volunteers*, or *companies raised at large*, the whole number not to exceed 10,000, apportioned in the several counties according to population;—in all cases to be first ordered into service, in case of war or invasion, or to prevent invasion,—to suppress riots, or to aid civil officers in the execution of the laws of the Commonwealth:—each officer and soldier to be entitled to receive a bounty of \$5 per annum, provided he performs all the duties required. Every volunteer is required to do duty for five years; and arms are furnished by the State, on application.

Officers and soldiers are required to provide themselves with uniforms, such as shall be prescribed by the commander-in-chief.—Three parades in each year are enjoined, one on the last Wednesday in May, at 9 o'clock, A. M. for inspection; and two others on two several days, for exercise and discipline; and also an inspection and review in each year by regiment or battalion. The fine of each non-commissioned officer and private for neglecting to appear, consists in a forfeit of his annual pay, and of \$4 for each and every day of such neglect.—*Am. Alm.*

Laborers' Daily Wages in Europe. In France, from 4½d to 15d. In Germany, from 4½d to 7d. In Netherlands, from 3d to 20d. In Italy, from 4d to 12d. The lowest wages per day is with board—the highest, without board.

JUSTICES throughout the Commonwealth, arranged according to the dates of their Commissions.

The Convention of the Congregational Ministers in the Commonwealth of Massachusetts

Is a voluntary Association, embracing all the Congregational Clergy of the Commonwealth, but vested with no particular authority or control over the Churches.

Their meeting is held in Boston, on the last Wednesday in May, annually, at five o'clock, P. M. and the following day. After transacting the usual business of the Convention, a sermon is delivered in public before them, and a collection made for the charitable purpose of relieving the indigent Widows of Congregational clergymen.

The Officers of the Convention are—

Rev. Nehemiah Adams, of Boston, Scribe of the Convention.

Rev. Samuel K. Lothrop, of Boston, Treasurer.

Rev. John Nelson, of Leicester, first Preacher.

Rev. Milton P. Braman, of Danvers, second Preacher.

For the purpose of investigating cases of necessity, and of application for the charity of the Convention, there are two standing Committees; a Central Committee, chosen centrally, and a Reporting Committee, whose members reside in different parts of the State. The Reporting Committee are required, each year, to investigate the circumstances of the objects of this charity, whether already on the list, or needing, or applying the first time for aid, and make a particular statement to the Central Committee, directed to the Scribe of the Convention, at least one week before the meeting of the Convention. Should any member neglect so to do for two successive years, his place in the Reporting Committee shall be vacated. The Central Committee receive from the members of the Reporting Committee applications and statements of facts in behalf of subjects of the charity of the Convention, and, having considered the same, are to judge of the persons to be relieved, and the proportion to be given to each, and make report to the Convention, on the first day of their meeting, annually.

The statements of the members of the Reporting Committee are expected to contain answers to the following questions—

1. What is her age?
2. What are the number, the sex, the ages, and the circumstances of her children?
3. What is a fair estimate of her property?
4. What is her ability to help herself?
5. What connexions has she, who are bound to afford her assistance? And in what way do they assist her?
6. What is her income?
7. What peculiar circumstances render her an object of charity; or make it desirable that she should have aid this year?

TABLE FOR REDUCING FRENCH AND ENGLISH MONEY
TO DOLLARS AND CENTS.

To reduce any sum in francs and centimes to dollars and cents. Take 1-8 and 1-2 of this 8th, and add the two together, for the value required in dollars and cents.

To reduce any sum in dollars and cents, to francs and centimes. Multiply the given sum by 4, add to this product one third of it, for the value required.

To reduce sterling money to dollars and cents, valuing the pound at \$4,80. To the given pounds, annex the shillings and pence in decimals of a pound, and add a cypher, or move the decimal point one place to the right; then multiply by 8, and the product by 6, and the last product is the value in dollars and cents.

To reduce dollars and cents to pounds. Divide the given sum by 8, and the quotient by 6, and the last quotient, placing the decimal point one place to the left, is the required sum in pounds and decimal parts.

DR. HERSCHEL'S TABLE

*For Foretelling the Weather, through all the Lunations
of each Year, forever,—amended by*

DR. ADAM CLARKE.

This table and the accompanying remarks are the result of many years' actual observation ; the whole being constructed on a due consideration of the attraction of the sun and moon, in their several positions respecting the earth, and will, by simple inspection, show the observer what kind of weather will most probably follow the entrance of the moon into any of its quarters, and that so near the truth as to be seldom or never found to fail.

If the new moon, the 1st qr., the full moon, or the last qr. happens	IN SUMMER.	IN WINTER.
Between midnight & 2 in the morning, {	Fair. {	Hard frost, unless the wind be S. or W.
— 2 and 4 morn. {	Cold, with frequent showers {	Snow and Stormy.
— 4 and 6 " {	Rain. {	Rain.
— 6 and 8 " {	Wind and rain. {	Stormy.
— 8 and 10 " {	Changeable {	Cold rain, if wind W. Snow, if east.
— 10 and 12 " {	Frequent Showers. {	Cold and high wind.
At 12 o'cl'k. at noon } and 2 P. M. }	Very rainy	Snow or rain.
Between 2 and 4 P. M.	Changeable.	Fair and mild.
— 4 and 6 " {	Fair. {	Fair.
— 6 and 8 " {	Fair, if wind N. W. } Rainy, if S. or S. W. }	Fair and frosty, if wind north or north-east.
— 8 and 10 " {	Ditto. {	Rain or sn. if S. or S. W.
— 10 and midnight	Fair.	Ditto. Fair and frosty.

Observations.—1. The nearer the time of the moon's change, first quarter, full and last quarter, are to *midnight*, the fairer will the weather be during the seven days following.

2. The space for this calculation occupies from ten at night till two next morning.

3. The nearer to *mid-day* or *noon*, the phases of the moon happen, the more foul or wet weather may be expected during the next seven days.

4. The space for this calculation occupies from ten in the forenoon to two in the afternoon. These observations refer principally to the summer, though they affect spring and autumn nearly in the same ratio.

5. The moon's change, first quarter, full, and last quarter, happening during six of the afternoon hours, i. e. from four to ten, may be followed by fair weather ; but this is mostly dependent on the *wind*, as is noted in the table.

6. Though the weather, from a variety of irregular causes, is more uncertain in the latter part of autumn, the whole of winter, and the beginning of spring, yet, in the main, the above observations will apply to those periods also.

" An evening red and morning gray,
Will set the traveller on his way ; -
But an evening gray and a morning red,
Will pour down rain on a traveller's head."
